

Challenge #8: External CSS and Responsiveness

Objectives:

1. Implement external CSS in your project.

External CSS in my project:

```
15  <!-- Custom Styles -->
16  <link rel="stylesheet" href="style.css">
17
18
```

2. Add Responsive implementation in the head tag.

Responsive implementation in the <head> tag:

```
      =Edge">
8      <meta name="viewport" content="width=device
      -width, initial-scale=1.0">
9      <link rel="stylesheet" href="https://fonts
```

line number 8

3. This is part under the repo project called "IntroToComputing- Challenges".
4. Push this in github the documentation in PDF format. The comment of your commit must be the title of this activity.
