

Challenge #3: Layout and Menu Elements

Objectives:

1. Apply Layout and menus in relation to the planned website based on your learning in w3school.

Here are some applied layout elements in my html code:

```
29 <div class='content'>
30   <h1 class='heading1'><span class="limetext">
      Dekada 70: </span><span class="white"
31   >Philippine Martial Law </span></h1>
      <p class='paragraph1'><span class="limetext"> On
      September 23, 1972,</span> Ferdinand Marcos
      spoke to the nation by television and by radio
      to make it known that he had declared Martial
      Law in the Philippines.</p> </div>
32 </div>
```

<div class='content'> </div>

2. This is part under the repo project called "IntroToComputing- Challenges".
3. Push this in github the documentation in PDF format. The comment of your commit must be the title of this activity.
