Challenge #7: Block, Inline, Class, and Id

Objectives:

1. Apply Block, Inline, Class, and Id in your project. See this reference:

Applied ID and Class in my project:

```
41    <div id="section1" class="scroll-animation">
42      <h1 class="animated"><span class="highlight"
          >Oplan Sagittarius </span>: Prelude to Martial
          Law</h1>
```

```
37    <div class='content'>
38      <h1 class='heading1'><span class="limetext">
          Dekada 70: </span><span class="white"
          >Philippine Martial Law </span></h1>
39      <p class='paragraph1'><span class="limetext"> On
          September 23, 1972,</span> Ferdinand Marcos
          spoke to the nation by television and by radio
          to make it known that he had declared Martial
          Law in the Philippines.</p> </div>
```

2. This is part under the repo project called "IntroToComputing- Challenges".
3. Push this in github the documentation in PDF format. The comment of your commit must be the title of this activity.
